

Enhancing Emotional Literacy  
through Visual Arts

---

## Registering an Expression of Interest: ELVA training

The Dax Centre offers yearly training for teachers.

The implementation of ELVA in a school community is enriched when there has been care and considered planning. The planning assists in identifying that the direction and priorities of the school aligns with the aims of ELVA.

Prior to registering your school, please ensure the following:

1. The school leadership have read and discussed the ELVA School Manual. This can be downloaded from the ELVA website under Resources.
2. The ELVA approach compliments the schools existing wellbeing program.
3. The school currently has a commitment to teaching visual arts.
4. The school is clear that only teachers who have completed the teacher professional learning component delivered by The Dax Centre can implement ELVA.
5. The school will nominate and fund between two and three staff to complete the teacher professional learning, or nominate for whole school staff training.

When you have completed the checklist, please email [margaret.nixon@daxcentre.org](mailto:margaret.nixon@daxcentre.org) with the school name and your contact details.
